Work Experience

Java Developer

Jan 2026 - Current

- IDE / Build Tools: NetBeans and VS Code, utilizing Maven for dependency and project management.
- UI Framework: Java Swing for building desktop graphical user interfaces.
- Database Integration: Core reliance on JDBC for establishing database connection strings, managing data flow, and executing SQL logic.

Full Stack Developer / something.com

Mar 2012 - Dec 2014

- Mobile: Flutter is your primary framework, using GetX for state management and Dio for handling HTTP network requests.
- Desktop: Java Swing for traditional desktop applications and Streamlit for rapid Python prototyping.
- Web: Pure JavaScript with heavy emphasis on DOM manipulation and advanced Array methods.

Data Analyst / designsomething.com

Jun 2010 - Mar 2012

- Data Layering: SQLAlchemy for Object-Relational Mapping (ORM), allowing you to interact with databases programmatically rather than just writing raw queries.
